Hotel reservations must be made by October 1, 2001.
Hotel reservations and cost are the participant's responsibility.
All rooms subject to availability.

Epidemiology and Prevention of Vaccine-Preventable Diseases

Presented by: The Centers for Disease Control and Prevention • California Department of Health Services, Immunization Branch
Sacramento County, Health and Human Services • County of Los Angeles, Department of Health Services • Public Health Foundation, Trust Fund 910

Epidemiology and Prevention of Vaccine-Preventable Diseases

A live, two-day course with the latest information for providers

Norwalk (LA), CA
November 5-6, 2001

Folsom (Sacramento), CA
November 8-9, 2001

**Continuing Professional Education
Credits Awarded**

This live course is designed to provide updates on schedules, contraindications, standard immunization practices, vaccine-preventable diseases, and vaccine management and safety.

Course Objectives

At the end of this course participants should be able to:

- ❖ Describe the difference between active and passive immunity.
- ❖ List two types of immunobiologics that confer active immunity and two that confer passive immunity.
- ❖ List two advantages and disadvantages of live vaccines.
- ❖ Find specific information about the disease organism, history, pathogenesis, clinical manifestations, differential diagnosis, and epidemiology in course materials and/or other appropriate references.
- ❖ Define the term "missed opportunities" and give examples.
- ❖ Describe the basic schedule and major contraindications to each of the standard vaccines.

For each vaccine-preventable disease:

- ❖ List the mode(s) of transmission, incubation period and period of communicability.
- ❖ List major complications and be able to determine the approximate rates of their occurrence.
- ❖ List the groups at risk.
- ❖ Identify those for whom routine immunization is recommended.
- ❖ State the type of immunobiologic that is used to confer protection (e.g. vaccine, toxoid). If vaccine, state whether it is live or inactivated.
- ❖ State, within five percent, the efficacy rate of the vaccines and state the duration of immunity.

What You Will Receive For Your Registration Fee

Participants will receive a course textbook, a copy of the General Recommendations on Immunization, a copy of the "Standards for Pediatric Immunization Practices," and a copy of the Guide to Contraindications to Childhood Vaccinations.

CMEs and CEUs

The Centers for Disease Control and Prevention (CDC) is accredited by the Accreditation Council for Continuing Medical Education to sponsor Continuing Medical Education (CME) for physicians. The CDC designates this continuing medical education activity for 15 credit hours in Category 1 of the Physician's Recognition Award of the American Medical Association. **The CME credit hours can be used as 15 contact hours for California Registered Nurses.** (Instructions for using CMEs as contact units available at the course.)

Participants must attend all sessions and pass a comprehensive test at the end of the program to receive CMEs.

(A score of 70% is required to pass the multiples-choice, open-book test.)

Accommodations for the Disabled

Hotels comply with accessibility requirements of the Federal Americans with Disabilities Act. Please request sign language interpreters, assistive listening devices, materials in alternative formats or other accommodations in writing with your registration by November 1, 2001.
